1.01 / Main Navigation

The main theme navigation is held inside a modal window. This modal window must have a `div id` of `menumodal`. You can add/remove/amend the actual menu items themselves and their `href` attributes in the `modal-body` and associated `li` items.

The `flyup` and `four, six, eight etc...` classes should be included for animation purposes. `ten`, for example, means that item will have a 0.6 second delay until it fly's up into place upon opening the menu window. The delay options increase in increments of 0.2s, and range from `two` up to `twentyfour`. These animation settings are unique to the main menu, and also the social menu. Animations for on-page actions are dealt with differently, and can be found in the [CSS](#) section of this documentation site.

```
1. <!-- ===== Main menu, (modal window) ===== -->
2.
3. <div id="menumodal" class="modal fade" tabindex="-1" role="dialog" aria-label="menumodalLabel" aria-hidden="true">
4.
5. <!-- Close modal trigger -->
6. <button class="toggleclose" data-dismiss="modal" aria-hidden="true">
7. <span class="icon-close"></span>
8. </button>
9. <div class="explore">
10. <h3>Explore</h3>
11. </div>
12.
13. <!-- Menu content -->
14. <div class="modal-dialog">
15. <div class="modal-content">
16. <div class="modal-header">
17. <!-- Logo for desktops/large screens -->
18. <div id="menumodalLabel" class="modal-title">
19. <div class="modallogo">
20. 
21. </div>
22. <div class="modaltagline">

78. </div>
79. <div class="modal-footer">
80. <h3>Get in Touch</h3>
81. <h4>Studio One, Green Trees Ave, NY 30023</h4>
82. </div>
83. </div>
84. </div>
85. </div>
86.
87. <!-- ===== End Main Navigation ===== -->
```

1.02 / Bullet Navigation

The container `div` of the bullet navigation must have a `div id` of `bullets`, and also include the `cover` class to ensure the bullets are vertically centered.

Ensure you include the `current-page-item` class on the first bullet item.

The colors of the bullets are designed to change when scrolling through page content. This means you must add the id's of the section div's to the `li` structure located within `nav-bullets` div.

To make each bullet-point scroll to the desired section of the page, you should include the `div id` in of the go-to section, in the `href` of the link, ensuring you specify each go-to div id with a hash tag, as seen below.

```
1. <!-- Bullet navigation -->
2. <nav id="bullets" class="cover">
3. <ul>
4. <li class="current-page-item"><a href="#start"></a></li>
5. <li><a href="#icons"></a></li>
6. <li><a href="#three"></a></li>
7. <li><a href="#stats"></a></li>
8. <li><a href="#blogfeed"></a></li>
9. <li><a href="#testimonials"></a></li>
10. </ul>
11. </nav>
```

1.03 / Social Navigation

Like the main navigation, this window is a pop-up modal window. All content for this modal window can be found within `<div id="socialmodal"></div>`. You can add/remove at your discretion. The icons are pulled from the Icomoon icon library that is integrated throughout the theme. The animation options are the same as the main menu.

```
1. <!-- ===== Social menu, (modal window) ===== -->
2.
3. <div id="socialmodal" class="modal fade" tabindex="-1" role="dialog" aria-label="socialmodalLabel" aria-hidden="true">
4.
5. <!-- Menu Trigger -->
6. <button class="toggleclose" data-dismiss="modal" aria-hidden="true">
7. <span class="icon-close"></span>
8. </button>
9. <div class="explore">
10. <h3>Be Social</h3>
11. </div>
12.
13. <div class="modal-dialog">
14. <div class="modal-content">
15. <div class="modal-body">
16. <h3>Connect with Jonathan Ive</h3>
17. <hr class="mini white central">
18. <ul class="socialicons">
19. <li class="flyup four"><a href="http://twitter.com/" title="Twitter" class="twitter" target="_blank"><span class="icon-twitter"></span></a></li>
20. <li class="flyup six"><a href="http://dribbble.com/" title="Dribbble" class="dribbble" target="_blank"><span class="icon-dribbble"></span></a></li>
21. <li class="flyup eight"><a href="http://facebook.com/" title="Facebook" class="facebook" target="_blank"><span class="icon-facebook"></span></a></li>
22. <li class="flyup ten"><a href="http://instagram.com/" title="Instagram" class="instagram" target="_blank"><span class="icon-instagram"></span></a></li>
23. <li class="flyup twelve"><a href="http://vimeo.com/" title="Vimeo" class="vimeo" target="_blank"><span class="icon-vimeo"></span></a></li>
24. </ul>
25. </div>
26. </div>
27. </div>
28.
29. </div>
30.
31. <!-- End social menu -->
```
